

Dear Elected Official:

I urge you to join the Wal-Mart Watch Elected Officials Task Force to show your support for our local communities. Wal-Mart's business practices are undermining our way of life and we want you to stand with us, not Wal-Mart.

Consider these staggering facts:

- Wal-Mart's meager wages mean federal taxpayers pay at least \$1.5 billion every year for public assistance to Wal-Mart employees.
- Wal-Mart's "Buy America" plan is long gone. 70% of Wal-Mart merchandise is from China.
- Wal-Mart will stop at nothing to expand and keep their profits growing. The company bullies its way into new markets, funneling \$4.3 million to front groups in California alone.

Please go to the website that has been set up specifically for this task force at www.walmartwatch.com/electeds and fill in your name. The members of the task force will be kept confidential and the purpose is to provide you with resources, such as model legislation and talking points, so that you can do everything possible to prevent Wal-Mart from engaging in the kinds of hazardous business practices mentioned above.

Sincerely,

First
